Subject: NYDA Covid data is growing, please complete this week's survey by 3 pm Thursday

Hi everyone,

Attached to this email you will find a summary of the Covid-19 Impact data collected last week. The number of respondents increased 18% from the previous week, offering a more thorough picture of how we've been impacted by this pandemic.

Some of the major takeaways from this week are:

- The total number of Covid-19 cases reported in our survey this week has reached 1,426 - an increase of 54% over the previous week.
- The current number of confirmed Covid-19 diagnoses among individuals served has increased by 26% over the week prior. Over 78% of the confirmed cases reported are located in the New York metropolitan region.
- The current number of confirmed Covid-19 diagnoses among staff has increased by nearly 35% since the week prior. Over 76% of the confirmed cases among employees are located in the New York metropolitan region.
- The total number of deaths among individuals served has increased to 156 with over 82% in the New York metropolitan area and 49% located within the 5 boroughs.
- The total number of deaths among staff has increased to 24, with over 79% in the New York metropolitan area and 67% in the 5 boroughs.
- The number of employees currently under quarantine represents 2.9% of the total workforce among respondents.

Please note that some of the growth in the data trends can be attributed to the increase in the number of respondents, but in increasing our sample size we're able to get a more comprehensive picture field and statewide.

Consistency is key with data, and we need to keep the momentum going.

If you've been completing the survey every week – Thank you. NYDA, its agencies, and the people they serve appreciate you taking the time every week. Keep it up.

If you haven't been taking the survey - Now's a good time to start. It only takes about 5 minutes. If you need help accessing the survey or have any questions, please contact CP State Director of Communications Bill DeVoe at wdevoe@cpstate.org.

A new link is issued every week. Here's this week's:

https://www.surveymonkey.com/r/NYDA_COVID19_0430

The data is collected at 3 p.m. every Thursday.

Arc Chapters should respond to the survey issued by The Arc New York and their responses will be incorporated into the NYDA results.

Thank you.
