Define Slot Series - Suspended (DIP)

**Now Available
with Batwing Distribution**

Neo-Ray Define – Minimalist Simplicity, High-Performing Versatility in Slot

Cooper Lighting Solutions is pleased to announce the Define LED series is now available with a high performance batwing indirect distribution making it an excellent choice for lower ceiling applications and areas where ceiling uniformity is important. The Define series has a variety of installation options: recessed, perimeter, suspended, surface, and wall. Equipped with a multitude of features and options, the Define series is an excellent lighting solution for office, education, hospitality, retail, and healthcare environments.
