VISION

We all want quality of life for ourselves, our families, and our communities.

CHALLENGE

Dementia is a growing challenge to our quality of life and we're not prepared for it. The good news is that Santa Clara County is part of a local and global movement to develop age-friendly and dementia-friendly communities. We have the know-how and resources to make it happen.

CALL TO ACTION

Join us to connect with leaders from research, healthcare, and government as we consider an effective and compassionate response to this critical public health issue. It's time to humanize dementia and create a framework for change. **It takes a village. Let's respond together.**

HELP US MOBILIZE and ENERGIZE SOUTH COUNTY

- Increase dementia awareness, compassion and supportive response among community organizations in South County.
- Help community members connect with dementia-friendly local and regional organizations and resources.
- Capture, assess and share learnings and feedback among participating organizations and the community.
- Acknowledge individual and organizational commitments to adopt and promote dementia-friendly practices.
- Encourage inclusiveness and sustainability.
- Create a model of engagement that can be replicated beyond South County.

FOLLOW THESE 5 STEPS

- Commit to RSVP and attend the Zoom Webinar
- Participate in the Q&A discussion
- Complete a post-event online survey
- Share your learnings and our campaign with your organization
- Share your organization's response with us

BE THE CHANGE YOU WANT TO SEE

Seize this opportunity to make new connections, learn more about dementia, share resources, and adopt age-friendly, dementia-friendly best practices to help make Morgan Hill, Gilroy, and San Martin communities the best they can be.

Thank You !!!
