LIVE WEBINAR

BACKFLOW 101

UNDERSTANDING RISKS, PROTECTION, AND PREVENTION

NATIONAL BACKFLOW PREVENTION DAY AUGUST 16

August 14 | 12 PM ET

EARN 1.0 Professional Development Hours

What You'll Learn

- Identify how contamination risks threaten potable water systems.
- Explain how cross-connections, backsiphonage, and backpressure cause backflow.
- Evaluate common backflow prevention assemblies and their applications.
- Apply testing and maintenance practices to prevent system failures.
