Handheld Test Tools

DPI 104

Test Pressure Gauges

DPI800 Series

Electrical, Temperature, Frequency, and Pressure Indicators / Calibrators

PV21X, 411A

Hand Pumps

UPS Series

Pocket-sized loop calibrators

Portable Pressure Calibrators

DPI 611

Portable Pressure
Calibrators
Ranges up to 20 bar

DPI 705

Pressure
Indicators

DPI 612

Advanced High & Low
Pressure Calibrators
Ranges up to 1000 bar

Multifunction Calibrators / Field Communicators

DPI 620 Genii Family

Modular Multifunction Calibrator
With HART / Fieldbus / Profibus Communicators

- Indicating & Simulating all process parameters:
 - Electrical.
 - Temperature.
 - Pressure .
- Pressure Generating Stations.
- Documenting / Datalogging.
- Full HART, FF, and PB Communication.

Pressure Controllers / Indicators

PACE Series – ranges up to 210 bar

- Pressure Controllers

Bench-top pressure controllers for accelerating the calibration process and provide precise pressure output.

- Pressure Indicators

High-accuracy pressure indicators for high accuracy applications.

Temperature Heat Sources

TC Family – Ranges -35 to 650 °C

Calibration heat sources for temperature calibration procedures.

Available in dry block or liquid bath versions to fulfil all the clients' needs in competitive prices.

Complete set of accessories are available.

4Sight2™

Simple, scalable, and smart

Calibration and asset
management software that
works for you

Audit-ready

Mobile paperless automated
field calibrations

Available anywhere, anytime

Selected (0)	Range	Tag #	Location	Assigned To	Due Date	Priority	Status	Allocated List	Approver

<input type="checkbox"/>	Range 0 to 4 BarG	TAG 002	Floor 1	Ramo1	01/09/2017	High	Due		Ramon
<input type="checkbox"/>	Range 0 - 3.5 BarG	TAG 004	Floor 2	Tech1	28/07/2017	High	Overdue		Ramon

Pressure & Level Transducers / Transmitters

- Specialized heavy duty transmitters for upstream applications & Submersible Level
- Pressure Transducers / Transmitters for all application.

Complete Test Benches
