Committee Meetings

SOUTHERN ARIZONA CONSTRUCTION CAREER DAYS

In 2023, we changed the structure of our committee meetings due to scheduled workloads on our volunteers. This new format proved extraordinarily productive and successful; therefore, we have chosen to continue this format for our 2024 event.

How does this work?

If you wish to participate in one of the event planning committees, you must first fill out and send in your event sponsorship commitment form.

- Once your sponsorship form has been received, you will receive a recommended sub committee to participate with.
- Please get in touch with the volunteer lead responsible for that sub committee and request to be added to all committee correspondence.
- Thank you so much in advance for considering participating this year. We are excited to have Pima JTED Foundation as our 2024 Beneficiary this year.

Sub Committees

We have seven sub committees to handle particular aspects of events that the Core Committee and Board can address. Each of these sub committees will have a Lead with whom you can remain in contact. Included is a list of the sub committee Leads and their contact information.

Core Committee

The Core Committee is a larger group of volunteers who drive our event planning. This committee is responsible for taking recommendations from the various sub committees to shape the event. They include the entire board of directors, title sponsors, sub committee leads, traffic control, and other community leaders participating in our event.

Board of Directors

This includes only Board Members, who will oversee the sub committee and Core Committee and consider any financial implications and recommendations by the two Committees listed above.

Sub Committees:

Building Construction Sub Committee
Lead: Kimberly York
Phone: 520-850-3934
E-mail: kyork@kbhome.com

Design Sub Committee
Lead: Heidi Lasham
Phone: 520-651-7481
