

She has worked tirelessly to bring this dream into reality. Heather's kind heart for people and her knowing how to reach them well is why Impact Cares has been able to touch so many people's lives. Heather, her husband Rob, and their amazing kids spent many years in Mozambique as missionaries. They came home to Cedaredge and quickly became an important part of many people's lives. They are busy raising their kids but also poured themselves into many other kids in the community. There are many young adults that are better people because they had Rob and Heather as mentors. I am sad to say Heather is moving away and will be stepping down from Impact Cares. We will miss her on the team. We love you Heather!
