*From the director of the hit documentary Screenagers: Filmmaker and physician Delaney Ruston uses a personal lens and professional eye to help us all flip the script on stress, anxiety, and depression. We follow Delaney as she finds herself at a loss on how to help her own teens as they struggle with their emotional wellbeing. Ruston sets out to understand these challenges in our current screen-filled society, and how we as parents and schools empower teens to overcome mental health challenges and build emotional agility, communication savvy, and stress resilience.*
