

Lucille

When I first came to Woodlynde in Second Grade it was magical. Everyone treated me with kindness and understanding and coming from a school where no one understood me, that meant a lot. Over the years I've made friends and had great teachers and great grades. I've realized that I'm terrific at math which is also my favorite subject, and I've learned how to write an essay, like this one! I love art here at Woodlynde. Most of my family are artists and Woodlynde has helped me grow as an artist. I was even able to turn one of my paintings into fabric. Music with Mr. Richardson is one of my favorite parts of Woodlynde. He understands me, he is super funny, and he is also an amazing music director. This year Mr. Richardson trusted me with the lead in Music Man and I loved every second from rehearsal to performance. I can't wait to be in the middle school and high school shows too. Overall, I recommend Woodlynde to anyone who feels misunderstood at their school. I am proud to say I am a lower school graduate and I speak from the heart when I say I love my school.
