---

In 2001, Troy Tissue co-founded TAG Resources to address the 401(k) product gap in the small business sector. He is the creator of The Open MEP® and many of the aggregated plan structures being offered throughout the country today.

Troy is one of the industry's leading experts on both multiple employer plans and fiduciary outsourcing. He is regularly invited to Washington DC to share his knowledge on the retirement industry with legislators and contributes to retirement focused articles for a number of national publications. Troy has built programs for corporations nationally and internationally and has firsthand experience and insight into the global economy.

Troy graduated with two undergraduate degrees from The Citadel in Charleston, South Carolina. He lives in Knoxville, TN with his wife and 3 daughters.
