

# MORNING “LIVE” WITH HCA

Spring is just around the corner (we hope!) and so is the next member-favorite HCA Live!

Join us to learn more about the latest in public health, our advocacy efforts and whatever else is top of mind.

This is intended to be open and honest communications with attendees. Following the public health overview, there will be an opportunity to pose questions to the staff, discuss current trends and hear about the latest news.

The rules are the same as always:

1. Grab a cup of your favorite morning beverage and sit back.
2. Listen, engage and have some questions ready.
3. Let's talk.
