

Elevator Location

Carpool Closure

The entrance from Oak Ridge Rd. will be closed for carpool on school days from 3:05 - 3:30PM. This includes the entrance to the north parking lot. You may still enter the property from 146th Street during that time. (As on all school days, those parked in the east lot will not be able to leave during this time.)

East Drive Closure

The east side drive by the church will be closed during construction. The east church entrance closest to the new elevator will also be closed during most of the project. The chapel ramp will remain open.

Handicap Parking

Phase two of the renovation project will be to tear out the island closest to the elevator in order to create new, elevator accessible parking spaces. You may still park here during phase one; however, note that you will need to navigate to one of the other entrances away from the construction.

Other Entrances

These entrances will remain open during construction.
