

Welcome to Yogaz!

Yogaz is a clothing line launch in Florida on Pine Island in January of 2022 with rave reviews from customers. Return customers say, "This is the most comfortable clothing I have ever worn, it's so soft, and so well made and a great value for the money." Yogaz founders Barbara and Buck Pelton have now relocated to Punta Gorda and the Yogaz clothing line is now available at Punta Gorda's local markets.

Yogaz is a company specializing in Eco Friendly **Bamboo** clothing. It is not the typical Yoga super tight leggings like Lululemon. This is a new design and style that can be worn for any occasion. Not too loose, not too tight but just right, anytime, any-wear.

Bamboo was designed as a replacement for silk, it is super soft, moisture wicking, hypoallergenic, UV protective and is made of Bamboo pulp so you can bury it in the ground, and it will dissolve. It lasts longer than cotton and has a shimmer that makes it look very elegant.

People say our clothing is the most comfortable they have ever worn, and they come back time and time again to get more. We have designed developed pants, shorts, tops, swimsuit cover ups, and tank tops for our line and have many men's products also. People use our clothing for boating, gardening, walking the dog, tennis, pickleball, yoga and more. It is unlike anything you have seen and is the hit of any occasion.
