### JOSHUA PRYOR - MILLION DOLLAR QUARTET

Joshua Pryor, originally from Clinton, AR, has been performing and playing music since he was just a kid. He's performed on stages all across the country from Alaska to New Hampshire.

While primarily a stage actor, he's portrayed Johnny Cash a number of times in various productions of the Broadway hit, Million Dollar Quartet, which is what brought him to Branson in 2024. Since his time in Million Dollar Quartet at Shepherd of the Hills, he's come to love the Branson audience and playing music with the talented musicians across town.

This smash hit, based on the Tony award- winning production, takes you back to 1956 to the studio of the Father of Rock n Roll, Sam Phillips at the Sun Records Studios when Elvis Presley, Johnny Cash, Carl Perkins, and Jerry Lee Lewis actually came together for the greatest jam session in music history.

Million Dollar Quartet takes you behind the scenes and puts you in the middle of the action as these four musicians, who became legends, returned to the studio of legendary producer, Sam Phillips, the man who invented Rock 'n' Roll. It is equal parts stage drama and foot-tapping live performance with hits like "Great Balls of Fire", "Hound Dog", "I Walk the Line", "Whole Lotta Shakin' Goin' On", and more. We're serving up a delicious dinner while enjoying an unforgettable night of Rock'n'Roll!

Shepherd of the Hills Homestead has been a favorite of Branson visitors for decades. The Ozark Mountains caught Nation's interest in 1907 when Harold Bell Wright's novel, *The Shepherd of the Hills*, was published. Wright's characters in the novel are based on people he met during his visit to the Ozark Mountains in the late 1800's, and the places he describes are on or surrounding the Shepherd of the Hills property of today.

While visiting, you can take a Historic Farm Tour and experience the Shepherd of the Hills Outdoor Drama, which bring Wright's timeless tale to life.
