

**LGBTQ+ and Oncology Awareness Symposium**  
**Friday, March 22, 2019**  
**Moffitt Cancer Center, Tampa FL**  
**Stabile Research Building**

**Goal: Understand the unique needs of cancer LGBTQ+ patients and their clinical care.**

**Primary Objectives:**

The LGBTQ+ Oncology Care Symposium is designed to equip the clinical care team in providing best evidence care and practice for LGBTQ+ people with cancer. Each session will be facilitated by a subject matter expert of a specific facet of LGBTQ+ research and patient care. The conference is suitable for all members of the health care team, including physicians, practitioners, nurses, and social workers.

1. Participants will gain proficiency in current terms and concepts regarding sexual and gender minorities
2. Participants will be able to identify primary care needs in cancer preventative health for LGBTQ+ individuals, including cancer screenings
3. Participants will be able to define social determinants of health and unique barriers to care for LGBTQ+ people and cancer care
4. Participants will understand how to provide a safe healthcare space
