

SAINT MARK SUPPORTED MISSIONS

ACTION IN MONTGOMERY: <http://actioninmontgomery.org/how-aim-is-responding-to-the-covid-19-pandemic/> AIM is committed to facing these new challenges with a focus on protecting the most vulnerable communities in Montgomery County, and supporting AIM member institutions.

ARC OF MONTGOMERY COUNTY: <https://thearcmontgomerycounty.org/> For 60 years, The Arc Montgomery County has supported children, youth, adults, seniors and families affected by disabilities like autism and Down syndrome, by providing child care, work skills training, employment, community living services, resources, respite care and advocacy.

CORNERSTONE MONTGOMERY: <https://www.cornerstonemontgomery.org/> Cornerstone Montgomery empowers people living with mental health and co-occurring mental health and substance use disorders to live, work and integrate successfully within the community.

CROSSWAY COMMUNITY: <https://www.crossway-community.org/> Mission is to promote learning, creativity, and community for all families

EDUCORPS: <https://educorpsonline.org/> In the Great Lakes Region of Africa, especially D.R.Congo and Rwanda, EduCorps is committed to providing hope and opportunities to girls through a scholarship fund, high quality fun education to students during their long “summer” break, high-quality professional development and coaching for teachers of the future.

FAMILY SERVICES: <https://www.sheppardpratt.org/donate/coronavirus/> During this time of heightened anxiety and uncertainty, we are here to serve as your partner in mental health. Our teams are working around the clock to ensure that mental health care is readily accessible for those in need.

GREATER DC DIAPER BANK: <https://greaterdcdiaperbank.org/> In response to the recent COVID-19 outbreak, we have partnered with several other basic need provider organizations around the DC metro region to ensure all families have what they need during this tough time.

HABITAT FOR HUMANITY: <https://habitatmm.org/> We urgently need your financial support. As businesses throughout our community are impacted by closures, so are many Habitat homeowners. We are committed to working with each family during this uncertain time, but we need your financial support to sustain that effort.

HEARTS WITH HAITI: <https://www.heartswithhaiti.org/> Hearts with Haiti is a primary funding partner for the St. Joseph Family, a remarkable Haitian organization that ministers to the most disadvantaged populations in Haiti—former street children, child slaves, and individuals with disabilities.

INTERFAITH WORKS: <https://www.iworksmc.org/> Groups, such as IW, that provide support, housing, etc to the homeless and to those in supported housing, have to maintain their staff that operate these activities. Given the pandemic, these are hazardous jobs. To provide the incentive pay needed to retain these people is putting a strain on the organisations budgets, to say nothing of the need for additional purchases of food and other supplies.

INTERNATIONAL RESCUE COMMITTEE: <https://www.rescue.org/> The COVID-19 pandemic poses a grave threat to refugees and displaced people—IRC health teams are responding around the clock in over 40 countries to prevent further spread of the disease.

MANNA FOOD CENTER: <https://www.mannafood.org/> Manna continues to serve our neighbors who are food insecure during these uncertain times. To account for social distancing needs and a surge in food requests related to COVID-19, we have modified and scaled our services, offering food in different formats and locations.

MONTGOMERY COUNTY COALITION FOR THE HOMELESS: <https://mcch.net/covid-19-update/> We are in need of funds to provide meals to the men at our shelter, ensure our formerly homeless clients in their homes scattered across the county are safe, and continue to support our dedicated staff during this time. We have also expanded our shelter capacity to serve 200 men at 4 locations. We have determined that MCCH will need an additional \$250,000 to keep our clients and community safe and healthy during this time of need.

NEW STORY LEADERSHIP: <https://www.newstoryleadership.org/> Now more than ever, our young leaders' voices need to be empowered and heard. We are continuing to carry out our work as the coronavirus pandemic has led to more suffering in both communities and plan to use this moment to redefine peace building in the region. The coronavirus does not see borders, Israeli or Palestinian, and the potential for online collaboration between the sides is limitless. As a result, we have been working hard on developing an NSL Digital Leadership Series that continues to create a new story of hope and peace.

REBUILDING TOGETHER MONTGOMERY COUNTY: <https://rebuildingtogetharmac.org/rebuilding-together-montgomery-countys-response-to-covid-19/> Our primary concern is protecting our low-income homeowners we serve, volunteers, staff and [Re]Build partners from the spread of the coronavirus - a serious public health situation that disproportionately impacts those we serve: the elderly, people suffering from underlying health problems, and families struggling financially while living in unhealthy or unsafe homes.

REVE KANDALE: <https://www.revekandale.org/> Our Mission is to promote equal access to education for all girls and boys through the creation of a safe and protective learning environment.

SAVE THE CHILDREN: <https://crowdfund.savethechildren.org/> From the beginning, Save the Children has been on the ground protecting children and families from COVID-19. More than 1 billion children are now out of school. Child poverty is rising. Refugees living in overcrowded camps and those living in conflict will be hit the hardest. Our teams are working around the clock to ensure the health, safety and psychological well-being of children in the U.S. and around the world are protected.
