DPS: 2022-125

The department is pleased to announce the release of the 2021-22 School, District and State Report Cards in the **Know Your Schools Portal** (<http://knowyourschoolsfl.org>). These report cards continue to serve as a valuable resource for parents, educators and stakeholders by offering transparency into how Florida's districts and schools are doing with regard to student achievement and success.

The 2021-22 Florida Report Cards provide the 2021-22 performance data and additional education information and outcomes compared to prior years' data in easy to understand formats, and a "Map and Compare Schools" tool that allows families to search and compare schools. School accountability data contained within these report cards will be updated, if applicable, following the conclusion of the appeals process. The department will continue to update information in these report cards throughout the year as new data become available.

We encourage you to share this information with parents, educators and stakeholders in your community and to provide your valuable feedback through the portal to help us continue to make the Florida Report Cards the central education data resource for Florida's communities. For more information about the 2021-22 School, District and State Report Cards or the Know Your Schools Portal, please contact the Division of Accountability, Research and Measurement at BITEam@fldoe.org or 850-245-0437.
