

An important part of being part in the PTA is engaging with the community. A group that we seldom hear from is our students. As we shared last month, the Student Engagement Committee does want to hear from you. "Sunshine Talks" will be a series of articles based on topics that we receive from you, presenting reflections on your ideas from our committee members.

We invite you to share your voice via the link the link below. Tell us what's going on in your community or share issues that you believe are worthy of discussion. Let's start the dialogue!
