2020 Skill-Building Live Webinar Series for Medical and Educational Interpreters

Call for Proposals

SeSo, Inc. is seeking guest speakers for our 2020 Skill-Building Live Webinar Series for Medical and Educational Interpreters. We invite proposals from participants who have attended a SeSo, Inc. workshop or course, either online or in a classroom setting, and interpreters who are currently working in a school or healthcare setting.

Important Dates:

✓ Proposals are due no later than **December 6th, 2019**
✓ Upon review, notification and final confirmation will be sent by **January 6, 2020**

We encourage you to submit your proposal early!

Details:

Your proposal should include a brief abstract (maximum 300 words) of your presentation and a short biographical paragraph (maximum 200 words). Please submit via email to sesoincga@gmail.com by **December 6th, 2019.**

Topics:

Proposed topics include (but are not limited to):

- Dual roles and conflicts in the school setting
- Useful medical terminology for educational interpreters
- Ethical dilemmas in medical and/or educational interpreting
- Sight translation for medical and/or educational interpreters
- The role of culture in medical and/or educational interpreting
- Benefits and challenges of being a contract and/or staff interpreter
- Tips to improve simultaneous interpretation in medical and/or educational settings
- Medical and/or educational interpreter self-care

Please Note:

- Your submission is not a guarantee that your proposal will be accepted.
- Proposals that appear to focus on selling products or services will be rejected.
- Proposals submitted after the deadline may be considered for selection, but preference will be given to those proposals received on time.
- If accepted, you are making the commitment to prepare your presentation to the best of your ability and the quality expected, and will meet all deadlines required.
- Guest speakers must be available at least 30 minutes before the start of the live webinar and must have a reliable computer, speakers and webcam available to present remotely.
