NAPHSIS

Protecting Personal Identity
Promoting Public Health

Who We Are

The National Association for Public Health Statistics and Information Systems (NAPHSIS) is the national nonprofit organization representing the state vital records and public health statistics offices in the United States. Formed in 1933, NAPHSIS brings vital records professionals from each state, the five territories, New York City, and the District of Columbia together with their partners in the private, public and nongovernmental sectors to enhance the national vital records system.

To serve the vital records community by providing national leadership to advance public health & protect individual identity.

A healthier & more secure world through vital records.

Our values are rooted in the principles that guide our vision and mission and articulate the beliefs behind all of our activities.

- Integrity
- Leadership
- Service
- Innovation

NAPHSIS Strategic Focus Areas

Informing Public Health

Technology & Modernization

Establish & Protect Identity

Advocacy

Professional Development

Strengthening Organizational
Capacity & Sustainability (HQ)

Informing Public Health

Strengthen public health partnerships
