

**IF YOU HAVE A CAT OR KITTEN THAT NEEDS**  
**TO BE REHOMED, NOW IS THE TIME!**

The winter months are very slow at Animal Shelters for cats, as cat activity decreases significantly during these months.

Our rescue partners are asking for adoptable cats as they have approved homes waiting. All cats/kittens will receive vaccinations, flea and ear mite treatments, worming, and be spayed or neutered.

Please do not wait until the Shelter gets busy in the spring, summer and fall when cat activity increases to ask us to help re-home your cat. Let's get them in now before breeding season is in full swing, and litters are being born!

***Please contact Regional Animal Shelter at***  
***804-769-4983 to discuss rehoming your cat.***
