

NEWTECH RECYCLING PROCESS

LICENSED FACILITY

As laws and regulations change, Newtech believes in a proactive approach. We are a permitted NJDEP facility, licensed to handle computer and electronic equipment.

LOGISTICAL PLANNING

The Newtech Team will work with our clients to plan, implement, and deliver the most efficient and cost effective method to move your electronics and meet your data security needs.

CERTIFICATE OF RECYCLING

We will provide a Certificate of Recycling for all material processed. This guarantees that your equipment was processed in the most environmentally responsible way

ELECTRONIC RECYCLING

The components are sorted by composition material, (eg., aluminum, glass, copper, plastic). All materials generated through this process are placed back into various manufacturing streams as feed stock.

DATA DESTRUCTION

Newtech provides services that removes all confidential and proprietary information from hard drives or other electronic media.

INVENTORY & TEST

At the client's request, Newtech will provide an itemized listing of all the equipment that is received. The information provided in this listing shall include the serial number, manufacturer, model and asset number.

ON SITE HARD DRIVE SHREDDING

Newtech offers hard drive destruction services. Trucks equipped with hard drive shredders and our fully trained technicians are available to provide hard drive destruction services at your office location.

CORPORATE CLEAN OUT

Newtech has the expertise to assist you in handling, logistics, packing, decommissioning, product destruction, and building clean outs. We will develop a project plan outline tailored to meet your requirements and expectations.

PICK-UP SERVICE

We have the ability to plan and provide transportation of large or small quantities of materials utilizing our fleet of trucks or national shipping partners. Customized scheduling and pick-ups to meet your specific needs.

*We welcome you to schedule a personalized tour.
