

VHC Welcomes a new Pharmacist in Charge

The Volunteer Healthcare Clinic is pleased to welcome **Candice Chavez** as our new **Pharmacist in Charge**. Candice, who has a Doctorate in Pharmacy, is a pharmacist at the nearby Hancock Center HEB Pharmacy. She is no stranger to the Clinic as she is a former volunteer and Pharm D Intern who provided medication counseling and health education to diabetic & hypertensive patients enrolled in our Monday night Chronic Disease Management (CDM) clinic. Candice also serves on the board of the Capital Area Pharmacy Association (CAPA) and we are excited to have her join the VHC team.

The VHC Board & Staff would also like to sincerely thank Mike Hearn for his service as our Pharmacist in Charge over the past year. Mike has been a dedicated volunteer pharmacist with VHC for nearly 5 years and is leaving for the best of reasons – a well-deserved promotion that will take him out of Texas.

Thank you Mike and Welcome Candice!
