

Re-Education Camp for a First Grader?

Is it child abuse when a California teacher ["celebrates a 5-year-old 'transition"](#) by reading ["I Am Jazz"](#) and ["The Red Crayon"](#) (explaining transgenderism) to her class of kindergartners? Followed up by a 5-year-old girl in the class stepping into the bathroom and re-emerging as a boy.

This stunt left many of the [children traumatized and crying](#), little girls asking their parents if they were going to turn into a boy. Another parent stated her son wanted to know if he could dress as a girl for school.

The exploitation of children in the public school in the name of diversity, social justice and tolerance is real. While we prefer to believe this is an anomaly, it is not. According to the superintendent of this school district, the parents were not notified "because kids [can't opt-out](#) of gender identity and expression lessons." The state of California only allows parents to opt-out of sex education not diversity and tolerance indoctrination. In other words, the state of California has the discretion of teaching your child whatever they deem necessary in the name of diversity and tolerance...apparently trumping parental rights.

The kindergarten teacher aired these books to her class at the end of the 2016/17 school year. At the beginning of the 2017/18 school year in California, a little first grade girl said hello to her friend calling him by the name she knew him as and not his new masculine name. She was "chastised" then summarily sent to the principles office and punished for using the wrong gender pronoun. Will the school be sending the first grader to re-education camp until she espouses the proper pronoun? Will other elementary children be re-educated before such heinous crimes are committed again?

What kinds of indoctrination/re-education classes will your children be sent to should they stray from the indoctrination of using the proper personal pronouns required by the schools, ACLU, Human Rights Coalition, LGBTQ, Governor of New Jersey and other entities that demand they recognize?

Watch Tucker Carlson's interview (<https://www.youtube.com/watch?v=N8L9cJZh0Lk>) with Karen England, Executive Director, [Capitol Resource Institute](#) addressing the treatment of an innocent child by the political correct crowd in the California public school system.

It should be noted that several of the parents have removed their children from this school. Perhaps it is time for parents around the country to begin removing their children from the public school system until the indoctrination and psychological abuse of children in the public schools is ended.
