

These are the long versions of the numbers that you are meant to put into the chart on the sheet that has this written at the top:

Decimal Place Value Chart

There are 6 places to write the numbers. Please write them out in number/short form.

For example -

six hundreds, seven tens, eight ones (decimal point) five tenths, four hundredths, three thousandths

Should be written in short form into the chart like this: 678.543

Please write in the following on your own:

- 1) Nine hundreds, nine tens, nine ones (decimal point) nine tenths, nine hundredths, nine thousandths
- 2) Three hundreds, eight tens, one ones (decimal point) five tenths, zero hundredths, one thousandths
- 3) Six hundreds, zero tens, zero ones (decimal point) zero tenths, zero hundredths, nine thousandths
- 4) Four hundreds, four tens, nine ones (decimal point) one tenths, one hundredths, seven thousandths
- 5) One hundreds, zero tens, eight ones (decimal point) eight tenths, seven hundredths, three thousandths
- 6) Zero hundreds, zero tens, zero ones (decimal point) zero tenths, three hundredths, five thousandths
