Boozy Root Beer Float

Servings: 1

Ingredients:

1 ounce rum
1 scoop vanilla ice cream
root beer chilled, to top

Instructions:

Prepare Your Glass: Take a tall glass and chill it in the freezer for about 10 minutes. This will help keep your drink cold longer.

Add Ice Cream: Place a generous scoop of vanilla ice cream into the chilled glass.

Pour the Rum: Slowly pour 1 ounce of rum over the ice cream.

Top with Root Beer: Gradually pour the chilled root beer into the glass until it reaches the top, allowing it to foam up nicely.

Stir and Serve: Give the drink a gentle stir to blend the flavors. Serve immediately with a straw and a long spoon for enjoying the ice cream.
