

Let our bells ring out their warning about the Climate Crisis once again on the eve of COP 27!

Ring out for Climate!

Come together as families and communities with songs, candles, art-work and prayers to express your concerns, hopes and fears. Let's raise our voices for Climate Justice!

Over 1,000 church bells around the world rang out their warning on the eve of COP 26. Humanity is suffering already and the risk is growing.

We must ring out again!

This is indeed
Code Red
for humanity!

Ring out on Saturday 5 November at 5pm for 15-30 minutes

You decide. And tell your local press, politicians and social media exactly why you are doing it!

*"As we look to COP27 I support the idea of ringing out church bells and for congregations, communities and families to come together and express their hopes and fears for our environment and our future."
Archbishop Stephen of York*

*"I endorse a second nationwide 'Ring out for Climate!' on the eve of the COP27. The impact of climate change is being daily experienced, especially in the world's economically poorest and most vulnerable countries who are not the nations that have caused this emergency. We must work together to safeguard our wonderful single island planet home and care for all God's creation."
Graham Usher of Norwich, lead Bishop for the Environment*

7 - 18 NOV 2022
SHARM AL-SHEIKH
COP 27
