

“Never before  
have we had such an  
awareness of what we are  
doing to the planet, and never  
before have we had the power to  
do something about that”

– David Attenborough,  
*‘A Life on our Planet’*

Imagine a society where every person  
can flourish and everyone has enough.  
Where local communities thrive.  
Where the climate is stabilising and  
animals and plants have a home.

What is your role in  
creating this society? What  
could your church do?

Take the conversation  
to your community with  
Green Christian’s 6-session  
Plenty! programme.

Plenty! Is a small group discussion resource for churches. It looks at the economic issues behind current ecological crises such as climate change and biodiversity loss and seeks to uncover more about why we are facing them, and what you can do about it from a Christian perspective.

In facilitated discussions of 1 hr 15 mins, you'll cover **Inequality, Consumerism and Advertising, Economic Growth and Debt** and **living sustainably with Joy in Enough!**

A better economic system is possible, one which puts the flourishing of creation within planetary boundaries ahead of profit. Will you and your church add your voice to the growing calls for change?

Plenty! is designed to work online using Zoom or face to face.

Plenty! has been developed by Green Christian's Joy in Enough's programme. This is a Christian initiative which works through churches to call for an economy prioritising wellbeing and the common good and enabling all creatures to live a fulfilled life as Jesus preached and practiced.

*"Further improvements in the quality of life no longer depend on further economic growth: the issue is now community and how we relate to each other."* – Richard Wilkinson, The Spirit Level.

**Green Christian is grateful to the following organisations for their financial support and encouragement: The Sisters of the Holy Cross Charitable Trust, the Passionists, St Peter's Saltley Trust and The Paristamen CIO.**
