COMING SOON!

Emergency Care Services When **NOW** is Needed

Riverside Community Hospital will soon be opening its newly remodeled and expanded ER, designed and equipped to serve more patients while delivering excellent emergency care. As the second busiest Trauma Center in California and one of the largest ER facilities in the Inland Empire, Riverside Community Hospital cares for more than 124,000 emergency patients annually and is ready to provide a higher level of care to you and your loved ones 24/7/365.

Our Newly Designed Emergency Department Features:

- Increased private patient beds from 50 to 62
- New Fast Track area that include 10 new treatment rooms
- New lab draw station to speed collections and testing
- New imaging room for X-rays
- New comfortably designed family-friendly waiting areas
- New patient check-in electronic kiosk system
- Two Board-certified pediatric emergency medicine physicians
- First Joint Commission Accredited Thrombectomy-Capable Stroke Center on the West Coast and second in the nation
