4

Today's Topics

1. Congressional Update
2. CRT Advocacy and News
3. Telehealth- Don't Abuse It
4. Clinician Update
5. NRRTS Update
6. Unite4CRT Presentation
7. Discussion and Q & A

5

Congressional Update

House and Senate in Session

Largely focused on reaching agreement on Omnibus legislation to keep government operating beyond 3/11.

CRT priority issues in discussions:

- Extend Telehealth flexibilities beyond PHE
- Extend Sequestration moratorium
- Provide additional industry relief

Public Health Emergency

6

CRT Advocacy and News

NCART- 2022 CRT Access Initiatives

1. Obtain Medicare coverage of power seat elevation and power standing systems, including appropriate coding and payment rates.
2. Obtain relief/assistance for COVID-19 impacts such as supply chain issues and increased operating challenges/costs that manufacturers and providers are fighting through to supply their products and services to people with disabilities.

7

CRT Advocacy (cont'd)

NCART- 2022 CRT Access Initiatives (cont'd)

3. Establish permanent availability of CRT Telehealth services (PT/OT) to ensure remote access beyond the expiration of the Public Health Emergency.
4. Develop updated plan for components of Separate Benefit Category initiative to secure needed improvements in CRT coverage, coding, payment, and standards.

8

CRT Advocacy (cont'd)

NCART- 2022 CRT Access Initiatives (cont'd)

5. Establish a National CRT Repair Workgroup to improve coverage, funding, and response times.
6. State Work- Build on current state advocacy and increase activities and tools to prevent Medicaid payment cuts, enforce adherence to federal access regulations and policies, and communicate benefits and cost-savings from access to CRT.

9

CRT Advocacy (cont'd)

Medicare Coverage of Power Seat Elevation and Power Standing Systems

- Meeting with CMS leaders held in late December
- Still waiting for CMS to announce opening of the NCD “reconsideration” for public comments
- ITEM Coalition and National Council on Disability following up on need for overdue CMS action
- Once public comments requested, important to solicit supportive responses; educational website will be available to facilitate submissions to CMS

10

CRT Advocacy (cont'd)

Permanent Telehealth After Public Health Emergency

- Multiple conversations within Congress
- NCART position paper requesting Congress “make permanent” current COVID-19 CRT telehealth flexibilities for individuals with disabilities
- Coordinating our work with broader work of APTA, AOTA, and ASHA
- Take Action: go to www.protectmymobility.org for info and to email your Members of Congress

11

Telehealth - Don't ABUSE it or We WILL Lose IT

- Prior to the PHE it was limited to rural beneficiaries, originating site, etc.
- During the PHE it was expanded nationally where the beneficiary could remain in their home
- Initially telehealth use grew quickly due to the ability to provide healthcare without in person contact
- Expanded beyond the treating practitioner to PTs and OTs for the LCMP wheelchair evaluation

12

Telehealth - Don't ABUSE it or We WILL Lose IT

- Scheduled to revert to policy prior to the PHE unless policy is changed
- PHE is currently in place until mid Apr 2022 will be extended for another 90 days through mid July 2022
- CMS will give 60 days notice of end of PHE
- Likely will end in July 2022
- Future of telehealth is being discussed
- CMS has concerns with telehealth being abused

13

Telehealth - Don't ABUSE it or We WILL Lose IT

- **Use IT not Abuse IT or LOSE IT**
- It shouldn't be a blanket for all
- Case by case with reason telehealth was used
- Reason primary care physician wasn't used either in person or telehealth
- Reason local PT/OT wasn't used either in person or telehealth

14

CTF: DME MAC collaboration

- Barbara Crume and Rita Stanley
 - Jill Monger, Terri Oxender, Cindy Smith, Penny Powers, Erin Michael, Mary Shea, Tamara Kittelson, and Jessica Presperin Pederson
- Prospectively reviewed seating & mobility equipment policies
- Fall 2021, sent letter
- January 2022, meeting with DME MAC medical directors
 - DME MACs are looking further at the proposed ICD-10 codes
 - Power assist issue > joint RESNA/CTF position paper on Power Assist to provide expert opinion towards the need for this policy change

CTF: 2022 Priorities

- Remain engaged in Power Seat Elevation and Power Standing System NCD Reconsideration Request
- Supported Standing position paper with RESNA
- Responding to denials and requests for additional information for recommended equipment
- Advocate for clinical best practice in seating and mobility across clinical settings
