Senior Cats & Helpful Stats - What You Need to know about CKD and BP

With Ashlie Saffire, DVM, DABVP (Feline)

Thursday, November 16, 2023 at 1:00 pm EST

In this webinar we will review the senior life stage and what diseases are most encountered with a focus on chronic kidney disease (CKD) and hypertension. We will discuss CKD and the benefits of early detection through annual diagnostics and the potential for a newly emerging tool that uses oral microbiome data to help identify at-risk patients for CKD. We will also discuss the importance of screening for feline hypertension, how to implement this diagnostic tool into practice and how to interpret results. We will end with a discussion about the different medications available for treatment of hypertension and their indications.

This webinar is RACE approved for 1 CE Credit.

Feline Leukemia Virus (FeLV): How Real the Threat?

With Richard B. Ford, DVM, MS

Tuesday, December 5, 2023 at 1:00 pm EST

This clinical update stresses several key issues pertaining to the diagnosis, management, and prevention of FeLV infection. Emphasis is placed on long-term patient management as it relates to pathogenesis of infection, interpretation of diagnostic test results, the practical side of vaccination decisions, and (new) use and interpretation of the latest testing platform to assess prognosis in the individual patient.

This webinar is RACE approved for 1 CE Credit.

Every Cat...Every Parasite

With Susan E. Little, DVM, PhD, DACVM

Thursday, December 7, 2023 1:00 pm EST

This presentation will review the common ticks, fleas, and vector-borne infections that threaten feline health as well as discuss the cestodes and nematodes that infect cats with a goal of supporting veterinarians in their efforts to protect feline health. Zoonotic concerns and the impact of parasitic infection on the human-animal bond will also be discussed.

RACE approval is pending for this webinar for 1 CE Credit
