Central Office

Tiered Champions – About \$5000 in programming changes. Tiered title is optional and requires a fee of \$15 for each tier level. For now to claim the title, it will need to be submitted outside of the ecat system. Titles will show up in future pedigrees. To be implemented May 1, 2020. If the number of requests warrants programming changes to automate into the ecat system then further programming changes will be required. *Motion to approve the money for the programming changes of \$5000* – **Carried**

Transfer of ownership – will be put in effect the next show season (2020-2021)

Transfer of Ownership and National/Regional Awards:

Under National Awards at beginning:

A cat/kitten is credited for all national points earned under the scoring provisions regardless of any transfers of ownership. ~~The owner(s) of record for the last show in which a cat earns points within a competitive category (i.e., kitten, championship, premiership, or household pet) will be considered the owner for the purposes of any awards. The owner(s) of record and national area/regional/divisional area assignment is set as of the first full weekend in January.~~

Under National/Regional/Divisional Assignment:

6. *Transfers of ownership which affect national area/regional/divisional area assignment must be received in the Central Office before the show at which a new region/area is listed and at the show in which the cat earns points prior to the first full show weekend in January.*

7. ~~*Transfers of ownership which affect national area/regional/or divisional area assignment must be received in the Central Office before the last show in which the cat earns points prior to the first full show weekend in January (see #6)*~~

7. Transfers of ownership received after the first full weekend in January and before the last full show weekend in April will be reflected for award purposes but will have no effect on the national area/regional/divisional assignment. At least one of the owners must continue to reside in the national area/region/division which was set by the first full weekend in January (see #6).

8. ~~A cat/kitten/household pet whose ownership has changed after the first full show weekend in January may continue to compete and earn points, however, any awards achieved will be received by the owner(s) on CFA records as of the first full show weekend in January.~~ Owner(s) who maintain residences in more than one region, divisional, or national area must identify by the first full show weekend in January the national area/region/divisional area in which the cat/kitten/household pet is to be assigned by listing the desired region of residence in the catalog of the last show in which the cat/kitten/household pet earns points prior to or on the first full show weekend in January. A cat/kitten/household pet whose owners' residence moves from one national area/region/divisional area to another after the first full show weekend in January will be assigned to the national area/region/divisional area where its owner(s) maintained a residence as of the first full show weekend in January.

Titles and Color Changes: At the October board meeting, CO proposed a change to the show rules to allow a cat which achieved the title of Grand Champion/Premier and subsequently changed its color, to keep the title of Grand. With the focus on genetically registering cats, there are instances when a sire or dam color needs to be corrected before registering offspring. Breeders/Owners are hesitant to do this because they don't want to lose the Grand title the cat achieved. Following is the change proposed in October:

6.11 A cat that has been confirmed a Champion, ~~Grand Champion~~, or Premier or ~~Grand Premier~~ may be eligible for entry under a different color and/or pattern than its confirmed color and/or pattern (except Sphynx, which are shown with no color or pattern description listed). It may be shown as an Open in the Champion/Premier class at the show in which the owner decides to make the change. These cats may not continue to compete as the new color and/or pattern at any further shows until the Central Office has been notified of the color and/or pattern change and payment of the current fee for a corrected registration has been submitted. Points and the titles of Champion and Premier earned under the previously confirmed color and/or pattern are not carried over to the new color and/or pattern and the cat must compete again as an Open in the Champion/Premier class. Grand Champion or Grand Premier and higher titles (e.g. National and Regional titles) remain if a cat's color is changed.

Additionally, the Scoring section of the National/Regional Awards program states "All points credited must be earned while competing as a particular color/tabby pattern. Cats/kittens that have earned points under more than one color/tabby pattern description

will only receive those points earned under the color/tabby pattern description for which they were eligible and last shown.” and there is a reference to show rule 6.11.

The discussion evolved to allowing a cat to keep all of its points regardless of the color shown. Although examples cited were a Cornish being shown as a red spotted tabby or a red mackerel tabby and a solid Persian being shown as a tabby Persian, by removing the reference to a cat receiving points shown as one color this potentially opens up the possibility of an Aby earning points as a red and then earning points as a ruddy and all the points earned as these two colors being attributed to one color, let's say ruddy.

Show rules required to make this change will be discussed in February.

Clarification from August motion - Kittens without registration numbers will be counted for China shows.
