## Global Climate Disruption:

A circular map of the Earth showing global temperature anomalies. The map is color-coded from blue (cooler) to red (warmer). A vertical color scale on the left indicates temperatures in degrees Fahrenheit, ranging from -3.6 to 3.6. The map shows significant warming, particularly in the mid and high latitudes.

***How Do We Know?***

***What Can We Do?***

**Sunday, May 5th**

**2-4pm**

**St. Paul's Episcopal Church**

**206 N. Park Ave. Fremont, OH**
