

Science Summer Camp

2nd – 5th Graders

This camp will be a camp dedicated to Science. Students will participate in hands-on activities each day while learning about these subjects: building a volcano, building a rocket, engineering : building bridges and supportive structures, Using recycled materials, Studying plants and animals, DNA and forensics, Climate and weather, and Stars and planets

The classes will take place over a two-week period, consisting of eight days, in an air-conditioned room. The first week will take place June 22nd through June 25th. The second week will take place Monday, June 29th through Thursday, July 2nd. Class time will be from 9:00 am – 11:30 am.

The cost for each week is \$160 (supplies & registration fee included!)

Each day your little Scientist in training will be educated on a new topic in the field of science. Different daily activities allow for your child to participate in either week or both!

If you would like your child to participate please complete the bottom of this flyer and return it with payment (checks made payable to St. Dominic School), in an envelope marked Mr. Chadwick, Science Summer Camp, no later than Wednesday, June 10th, please!
