

*Freeman West* – The main entrance door located by the water wall. All other entrances will be locked with the exception of the doors located in the Heart Institute. Those doors will be open to those patients and a visitor arriving to the Heart Institute for clinic visit or for heart related procedures. That entry will be open from 5:00 AM - 5:30 PM. After that time, all patients and visitors will be directed to the main entrance for screening. After 7:00 PM, visitors will need to enter through the ER entrance and will be screened at the ER Admissions Desk. The same visitor rules will apply.

*Freeman East* – Visitors and patients will enter through the main entrance located on the top level admissions areas for screening and then be directed to the area they need to visit.

*Freeman Neosho* – Patients and visitors will enter through the Emergency Department entrance and directed to the admissions area for screening.
