

# Field Trips at the Roanoke/Cashie River Center

The Roanoke/Cashie River Center features exhibits that focus on our region's ecosystems and cultural history. We host exhibits that allow patrons to touch specimens from our bottomland forest ecosystem, watch fish swim in a blackwater aquarium and see live turtles in our tank. Other exhibits display artifacts from First Nation tribes, archeological evidence that members from the Lost Colony might have relocated to the area that is now Bertie County and displays that showcase the rich history of Bertie County's fishing, farming, and timber industries. School groups from all across Eastern North Carolina join us to share the opportunity to expand students' knowledge on the importance of our ecosystem and rich cultural history. The Roanoke/Cashie River Center may be your next best field trip yet!

## Field Trip Includes

- **Cashie Boardwalk and Exhibit Hall Scavenger Hunt** (grade-level appropriate)
- **Environmental Education Program** designed specifically to meet NC science standards (2023) and take into consideration student's needs
- **Art Project/Craft or Game** associated with the core environmental lesson
- **Boat Trip** down the Cashie River is available for an extra cost per student. Each trip can accommodate 10 students so is designed for smaller groups.

**Free Admission  
for students  
and teachers.**

We can accommodate groups as large as 40 students! Our museum operates from Tuesday through Friday for group visits, with a scheduled start time at 10:00am. To schedule your group's next visit to the Roanoke/Cashie River Center, call us at 252-794-2001.

## RCRC STEM Field Trip Grant

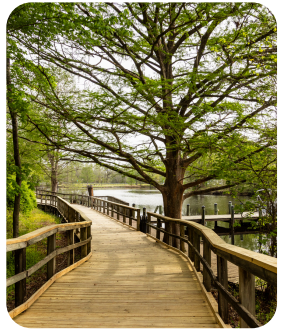

At the start of each calendar year, the Roanoke/Cashie River Center offers financial support to Bertie County Public School teachers. Transportation, admission and program costs are covered for those teacher's applications who are accepted to attend a science museum in Eastern NC. We announce the application opening via Facebook and Instagram so stay posted!

## Program Options

We provide options relevant to your student's NC Science Standards for their grade, and work with you to determine the best fit for your group.

### Lessons topics include:

- Life of a Honeybee
- Watersheds
- Soil Types
- Ecosystems
- Life cycles
- Plant structures
- Lithosphere, Atmosphere, Hydrosphere
- Arboreal research
- ...and many more!

## We have programming for the following NC Science Standards:

- PS.K.1.1, LS.K.1.1-2, LS.K.2.1-2,
- LS.1.1.1-2, ESS.1.2.1-2, ESS.1.3.1-2
- LS.2.1.1-2, LS.2.2.1
- LS.3.2.1-2, LS.3.3.1-2
- LS.4.1.1-2, LS.4.2.1-2, ESS.4.3.1-2
- LS.5.1.1-2, LS.5.2.1-3, LS.5.3.1-2
- LS.6.1.1-3, ESS.6.2, ESS.6.3
- ESS.7.2.1-3
- ESS.8.2.1, ESS.8.3.1-2
