About Cleveland History Days: The third annual Cleveland History Days is happening from June 25 – July 4! Founded on the shores of Lake Erie and the Cuyahoga River, Cleveland's growth as a major American city was fueled and influenced by the many immigrant groups that settled here. It is a city that emerged from the Gilded Age as a leader in policy and programs, building not only a great city but also a greater civilization with a vibrant culture. We've put together a fun mix of engaging in-person and virtual events, self-guided tours and art that will give you the chance over ten days to safely discover Cleveland's rich cultural heritage.
