ABOUT CONNOR

Connor is an economist at ITR Economics™. He provides economic consulting services for small businesses, trade associations, and Fortune 500 companies across a spectrum of industries. His economic insight and forecasting experience play a key role in ITR Economics' 94.7% accuracy rating.

Connor specializes in applied research for business-cycle trend analysis, growth-cycle trend analysis, and the utilization of cyclical analysis at the business level.

Connor applies his expertise in these areas primarily through the Executive Vantage Point™ customized company revenue forecasting reporting programs.

Connor contributes articles to ITR Economics' flagship publication, the ITR Trends Report. He and the team at ITR Economics put this expertise to work for companies from a wide-range of industries, including manufacturing, chemicals, fibers, healthcare, distribution, real estate, construction, and technology.
