

Academic Planning for High School Graduation & College Admission

Academic planning for the 2017-2018 school year is underway, and it's the season now for students to select courses as well as take steps forward in the college process.

Course Selection Process

Counselors will meet with students during scheduled class periods to provide guidance. In addition, individual conferences are offered to equip parents and guardians as they guide their students in developing a 4-year plan, selecting appropriate courses, and preparing for college thoughtfully.

High school students will submit their completed course registration forms to their advisors. Eighth grade students will submit their completed forms to Miss Anderson. **April 28 is the course registration deadline.**

Course Selection Materials

Course selection forms and materials will be distributed to high school students through their Bible classes and advisory groups. Digital forms will also be emailed to families.
