Dean's Hour: LATE BREAKING: The Expected Changes to New York Community Medicaid

With the NCBA Community Relations and Public Education Committee

12:30-1:30PM

1 credit in professional practice.

Program presented by Moriah Adamo, Esq. and Adam D'Antonio, Esq.

Community Medicaid is a common option for individuals who require long term care, but want to remain in their home or the "community" instead of moving to a nursing home. New York is enacting major changes to the application process, eligibility requirements, financial disclosures, and how care will be determined and provided in the near future. This seminar will provide an overview and update concerning the important changes you and your loved ones must know about when planning for long term care needs.

Zoom details and forms to follow in future NCBA e-blast. Credit is free to NCBA members and \$35 for non-members.
