

Are you a Healthcare Provider at work and a Family Caregiver at home?

Then you are a **Double Duty Caregiver**

Being located at the intersection of two demanding roles— care at work and at home-- can be stressful!

Researchers at the University of Alberta want to know:
“How have Double Duty Caregivers have been affected by the COVID-19 pandemic?”

Click on the link to complete the survey
<https://redcap.link/doubleduty>

The survey will take 20 minutes of your time. Study Number: Pro00117700
