

CCP- To Note in October

Before proceeding with your registration renewal, you must update your CCP learning plan by recording all your completed learning activities, evaluate their impact on your practice and submit your plan to NANB via your “My Profile” account.

On November 30th, your CCP learning plan for 2025 will no longer be accessible for editing and will be used for the purpose of the NANB CCP audit.

For guidance on accessing the CCP components, refer to the [Guide to the Continuous Competency Program \(CCP\)](#).
