

Meet McLaren

WOUND CARE AND HYPERBARIC CENTER

If you have a patient with a wound that has not begun to heal in two weeks or is not completely healed in six weeks, they may benefit from the proven, best-practice methodologies at the Wound Care and Hyperbaric Center at McLaren Greater Lansing.

As the referring physician you are included in your patients plan of care every step of the way. Our team of physicians, specialty trained wound care nurses, and health care support will develop a treatment plan for your patient. Once treatment for your patient begins, our team will provide you with updates on their progress throughout the process.

INDICATIONS FOR WOUND THERAPY INCLUDE:

- Diabetic ulcers
- Neuropathic ulcers
- Pressure ulcers
- Ischemic ulcers
- Venous insufficiency
- Traumatic wounds
- Surgical wounds
