

# Discovery Education Summer Workshop Series for Delaware Educators

Discovery Education professional learning can be found in PDMS! When you register and attend one of our sessions this summer, you will receive one (1) professional learning (PL) clock hour for each session attended. Register in PDMS by searching for Course 30581 and then select the "section" tab and register for the session(s) that interests you. Be sure to check out our latest offerings this summer.

## **Course: Delaware Discovery Education Workshop Series**

We would like to provide free professional development to Delaware educators interested in becoming more engaged with the DE platform and helping fellow educators develop their own skills. Through three 75-minute sessions you will learn how to use platform, how to promote active learning, and how to foster creativity and collaboration opportunities within the safe and contained DE platform.

### **Session Details:**

#### **Workshop Session 1: Your Daily Learning Platform**

Go hands-on in an introduction to Discovery Education's learning platform. From diverse digital resources to powerful tools that support any learning environment, there is much to explore. In addition to learning how to search for and save relevant and engaging content, participants will also begin designing an interactive video quiz for an upcoming lesson.

#### **Workshop Session 2: Promote Active Learning**

Dive deeper into Discovery Education with Quiz, an assessment tool that provides creative ways to get students thinking and offers real-time data on student progress. Participants will begin to utilize Quiz and other rich content from Discovery Education to support students' needs and guide daily instruction. They will also be inspired to take advantage of the time-saving resources available for educators and virtual opportunities that connect students to the world around them.

#### **Workshop Session 3: Create, Collaborate, and Connect**

Take teaching and learning to the next level with Studio, Discovery Education's innovative presentation tool that encourages content creation, collaboration, and active engagement. Participants will use the powerful features of Studio to design a learning activity that supports all learners and amplifies student voice. They will also be empowered with valuable educator supports and will leave excited to connect with other members of Discovery Education in the global network of educators who love to share their inspiration and best practices.

### **Session Options:**
