

EMERGING LEADERS

in STEM

mentorship program for
high school & college women

Now enrolling for Cohort Three: Emerging Leaders in Biotechnology!

Eight-week program, begins April 7, 2022

This fast-paced, hybrid program introduces high school and college women to biotechnology and cyber jobs, in an all-female cohort environment. Students will get up-close experience with STEM employers, hands-on laboratory experiences, plus meet female luminaries from the spectrum of STEM careers.

What will you do in Emerging Leaders in Biotechnology?

- Meet strong women who are kicking butt and taking names in STEM fields
- Learn lab skills + computer science techniques that will set you apart when applying to college and that first job
- Practice “soft skills” like making connections and public speaking, which are in super high demand in science jobs
- See inside AstraZeneca biomanufacturing laboratories
- Build friendships with college and high school women who have similar interests
- Receive a \$50 Travel stipend
- Get a completion certificate to add to your college application or résumé!

Who can apply?

- Any female student attending a public high school or a two-year or four-year in the Wilmington/Philadelphia metro area
- Individuals who identify as female, cisgender, transgender, and non-binary
- Priority will be given to those from groups underrepresented in STEM careers, including Black and Latina women, women from Native American backgrounds, as well as first generation college students

Cost: Free!

Cohort size is limited, apply by March 17!
