Vaccinate Against Covid-19!

What Are the Phases of Virginia's Covid-19 Immunization Campaign?
The Virginia Department of Health (VDH) has announced three Initial Phases: **1A**, **1B**, and **1C**. **So far vaccines are being offered under 1A and 1B only**. Vaccine supplies are limited and will vary across regions of the state. See the VDH website for information on the immunization of essential workers. Not covered here.

Find your Local Health District - Which one covers CRAAG's Region?
Check your local health department's website frequently.
- Contact the Blue Ridge Health District (BRHD) (for City of Charlottesville, Albemarle Fluvanna, Greene, Louisa and Nelson counties) in our Region
- Local Health District Locator for other areas of the state

Phase 1A - Who Was First?
Virginia's immunization campaign began December 14, 2020 with **Phase 1A** for front-line health care personnel, including direct care aides and home health workers, plus residents and staff of long term care facilities, intermediate care facilities, and adult care homes, family care homes, and group homes. **Phase 1A is ongoing**.

How to Register for a Vaccination in Phase 1B?
Starting January 18th Phase 1B is open. Complete the applicable survey(s) below to notify VDH of your interest in being immunized in Phase 1B.
- Individuals Ages 16 - 64 with High Risk Medical Conditions (**for example, "neurological condition" or "Down Syndrome" or others listed**)
- Individuals 65 or Older

What about Phase 1C and Phase 2?
The start of 1C and 2 has not been announced.

January 18, 2020
