Legislative Session at Halfway Point

SB537 would create the Georgia Food Security Advisory Council to enact the Food Insecurity Eradication Act. The act would govern food banks, the SNAP food stamp program and WIC, the federal food program for infants and children under five.

SB303 allows someone buying a dog seven days to have the animal checked by a veterinarian. The bill mandates that anyone with more than 30 dogs for sale must be licensed. This is an effort to rid the state of puppy mills.
