

Grape Federal Crop Insurance Deadline: February 1st, 2021 Prepare for Another Unpredictable Year

Crop insurance is the FIRST line of defense a grower has against wildfires and unpredictable weather. As we reflect on 2020, a year unlike any other, consider your crop insurance coverage: Were you covered properly? Were you informed of the process? Have you been paid timely for your losses?

Pan American Insurance has been a long-standing partner and the endorsed insurance provider for CAWG since 1995 and we are celebrating our 75th year serving the ag industry. Like our clients, 2020 was an unprecedented year for us with blanket claims across the state.

We understand the monetary and emotional burden of these losses is very serious and urgent, thus, we take the responsibility of addressing grower concerns regarding crop insurance as a privilege and duty. If you currently have your crop insurance through Pan American Insurance, thank you for your partnership! If not, let us be your trusted agency.

Act now to protect yourself from what may be on the horizon in 2021. See the reverse side of this letter to provide vineyard details for a quote or contact your Pan American partners to discuss your 2021 policy options.
