

Handwashing

These work well for us to send out with field crews along with an **Igloo fresh water container**: <https://www.ebay.com/itm/SIMPLE-HAND-WASH-system-hands-free-A-Hand-Wash-Station-for-camp-Sanitation/13339539777?hash=item1foefc3c91:g:26sAAOxy9eVRPpkw>

Homemade, inexpensive and successfully used for customer use: We ordered a portable hand wash station from **PortableHandwashing.com**. We ordered beginning of April with a July delivery date. It has a foot pump, soap dispenser & paper towel dispenser. It's not cheap. Plus shipping was \$174

There are lots of places that sell their used ones if they offer a service. I would love to be able to get one of these!
