

# Greensboro/Stannard Emergency Response Team

## April 10, 2020 (updated July 1, 2020)

Dear Neighbors,

Our local Emergency Response Team sprang into action after Governor Scott's Covid-19 Emergency Declaration on Friday, March 13, 2020. Together with the help of everyone in town, we have implemented many strategies that serve to protect and support our community. Please visit [www.greensborovt.org](http://www.greensborovt.org) for up to date information on these efforts. Please note that in accordance with state mandates:

**Residents and non-residents coming to Vermont must quarantine for 14 days.**

Quarantine means you must stay on your property for 14 days. Walking and boating for exercise are allowed, but wear a mask if you meet someone. Grocery shopping, errands or any activity that puts you in contact with other people not in your household are not allowed. After 7 days, you can get tested for Covid 19 at one of the many sites around the state. If negative, you will be released from further quarantine. If positive, notify your medical provider or the Greensboro Town Health Officer as listed below. Visit [www.healthvermont.gov](http://www.healthvermont.gov) for more information about quarantine regulations.

Groceries will be delivered to you upon request. Call Smith's Store (533-2631) or Willey's Store (533-2621) with your order which will be delivered to the front porch of your home. Walgreens and Kinney Drugs are both delivering as well.

Karl Stein, the Greensboro Town Health Officer has requested that you call 533-2379 to notify him of your arrival in town. If you have any symptoms, **call your medical provider.**

If you anticipate needing the services of the Hardwick Area Rescue Squad **during your isolation time,** please call Tim Nisbet at 533-7727 to preplan.

If and when you need Hardwick Rescue services, call 911.

After the two-week quarantine period has passed, please continue to maintain a social distance and stand six feet apart, congregate only virtually and avoid any activity that could pass illness to others.

**The use of face masks by everyone is strongly recommended!**
